## WIRE and CABLE PROCESSING

As one of the leading cable harness contract manufactures, Repro Parts, Inc. also provides wire lead service to manufacturers of finished products. Utilizing our automated state-of-the-art wire/cable processing equipment, we can produce product quickly to companies. We are able to produce to your exacting needs. Wire leads can be produced from all types of wire, stranded or solid. Wire leads can be produced from our purchased industry approved wire (UL/RoHS) or your wire provided.

RPI produces wires to, but not limited to, the following

- Wire 30 through 8AWG, 26-10,000mm in length
- Blunt end cuts (single or both ends)
- Stripped end (single or both ends)
- Wire ends tinned
- Wire termination (single or both ends)
- Wire twisting
- Retention of insulation on wire ends
- Wire labeling

**In need of quality wire leads quickly.  
Call RPI for your next wire lead requirement.**
